Trifecta's properties are the Eureka, Eureka Dome, Trident, Triple Crown and Treble in Yukon, and the Yuge in Nevada. Trifecta is currently focused on Eureka and Yuge.

YUKON

Eureka – Gold in the Southern Klondike

- 100% owned by Trifecta Gold.
- Located in the legendary Klondike Goldfields.
- Road accessible – 110 km south of Dawson and located on the proposed haulage route to Goldcorp's Coffee Deposit.
- Between Klondike Gold Corp. and White Gold Corp.
- Straddles the headwaters of Eureka and Black Hills Creeks, where combined reported placer gold production between 1978 and 2019 has totalled over 200,000 ounces. Historic production is much more.
- 5 gold showings discovered to date.
- Permitted for large scale exploration and drilling.
- 8,000 by 2,500 m elongated belt of extensive gold-in-soil geochemical anomalies.

NEVADA

Yuge – Forgotten High Grade Gold Prospect

- Located in Humboldt county, 55 km by road from Denio.
- Power and telephone lines run through the property.
- Covers the Columbia and Juanita historical mines.
- Widespread, high grade gold (peak value: 150 g/t gold).
- Only 3 drill holes known to have been completed to date.
- Discovered from data mining a newly acquired proprietary database.
- Can be worked all year long.
